Brett,

Today we removed two of the I-beams that were in the ground, no burning will be done. Job is completed.

Thank you

Rick Hill
Rotation Manager

Hi Camron,

Are you doing this work today? How are you cutting the posts? The site was the location of a gasoline spill and you need to confirm that there is no explosion risk if your method involves a torch or the potential for sparks. We can come to the site with an LEL to take measurements in advance of any hot work.

Please let us know your schedule ASAP.

Brett Bowyer, P.G.

Hi Cameron,

Just following up on this to see what the status of the schedule for the removal of the billboard structure. We were also wondering how the structure is going to be cut.

Warm Regards,

Alan A. Malagón, MSE, EIT

Hi Cameron,

How do you plan on removing the billboard? Are you just going to cut off the posts at surface grade. I think that would be acceptable. If you want to yank out the concrete footings, please let us know, as we should probably be there if you are going to be disturbing the soil.

Thanks.

Brett Bowyer, P.G.

Hi Cameron,

Thank you for returning my call. Just to reiterate our phone conversation today. Your team is aware that the billboard structure was damaged during the fire and is planning on removing the structure. Do you guys have an schedule/plans you could share with us? This will help us coordinate efforts for this project.

Warm Regards,

Alan A. Malagón, MSE, EIT
